

EASY TYPING - PRIVACY POLICY

Easy Typing- Privacy Policy Last updated: April 18, 2016

This privacy policy governs your use of the software application _____ for mobile devices that was created by _____. The Application is developed keeping in mind, the children with autism and other special needs. The app has three levels for kids with different levels of functioning. The 'Beginner' and 'Advanced' levels provide a custom keyboard with larger keys and key highlight feature for easy focusing. The Expert level provides the device keyboard. The user can use a list of Dolch words or can add words in a custom list of words.

Your Consent

By accessing and/or using the services in the app, you agree to the terms and conditions set forth in this privacy policy. If you disagree to any terms provided herein, you may not access or use the service.

Offline Use

Easy Typing allows the use of its services offline. Offline use of the services will preclude the collection of any information pertaining to you and/or your use of the services (including, as applicable, information pertaining to your child and their use) by any third parties or the developer.

Online use

This app does not collect any information from its users. Some information may nonetheless be collected by third party services used by the app. The app does not allow third parties to collect information that may identify an individual, nor does it allow to collect any information of private or sensitive nature.

Direct Marketing and Advertising

This app does not link any advertisements from third party advertisers.

Cookies and Local Storage

When you access or use the service, we may use industry wide technologies, such as 'cookies' (or similar technologies), which store certain information on your device ('local storage'), and which will allow for automatic activation of certain features, and make your service experience much more convenient and effortless. The app collects and stores configuration data for custom configuration of your app in your device local storage. None of the data is transferred to any third parties at any time.
